Complete Conveying Solutions

The Prorunner MK10 pallet lift is a high quality and robust vertical pallet conveyor. Similar in design to the MK9, the MK10 is a heavier duty option with 4 vertical post supports.

The lift can be fitted with standard sections of pallet roller or chain conveyor as well as bespoke conveyor modules for non-standard loads.

Available in multiple configurations to suit your layout and product.

- ⤴ Up to 60 pallets per hour
- ⤴ Maximum lift height up to 15,000mm
- ⤴ Suitable for carrying pallets, boxes, stillages, IBC's and a variety of other products
- ⤴ Standard footprint of 3m²
- ⤴ Maximum pallet weight 2000kg
- ⤴ Low noise, SEW Eurodrive motor, Advance control panel with Siemens PLC
